Temporary Lighting System

MODEL: CENT10

CAUTION

- Ensure all lampholders have a lamp fitted and that the lighting string is in position before connecting to power.
- AS/NZS3012 requirement: String Lighting shall be supported at least 2.5m above any floor ground or platform or be Installed immediately below a ceiling.
- Do not insert or remove lamps while the string is connected to the power supply.
- Use of a Residual Current Device is recommended for added safety.
- Do not use when damaged.
- Do not electrically connect to another lighting chain.
- UV Protected for use as a temporary lighting system.
- Do not use where tinsel or other metallic decorations may come in contact with lamp holders.
- This lighting system is intended for outdoor use but the plug must be used in a weather proof enclosure.
