FEATURES

SPECIFICATIONS

- Fits Holes 100mmØ - 135mmØ

- Downlight hole cover plate to retrofit a 90mm downlight into a 100mm to 135mm ceiling hole cut out
- easily cover old standard 125mm diameter holes
- No screws, glue or fixings of any kind required for most fittings
- The downlight itself will hold the ring in place
- Note: length of the ceiling clips on the chosen downlight will need to be wide enough to span across old ceiling hole to hold in place.
- Ceiling clips on Superlux downlights LDE90 and LDLB90 ranges are long enough to cover 135mm diameter holes.

Indoor / Outdoor: Indoor
Mounting type: Ceiling, Recessed
Colour: White
