

Model: **FLED29 LED Floor Lamp**

Instructions and assembly Information

For indoor use Only. Use on a level surface.

Assembly instructions:

- The Lamp head and post assembly is in 4 sections.
Lay these out on a soft surface so as not to scratch the product during assembly.
Remove plastic protection bags/sleeves.
Assemble the 2 Top threaded sections together turning clockwise.
Assemble the next post section.
When assembling the bottom Post section, it can be helpful to turn this anticlockwise say
6 revolutions before turning clockwise to assemble.
This will stop the cable bunching
inside and the free cable with Connector will pass out the side hole freely.
- Unpack the Heavy Round Floor Base.
- The Pole assembly can now be assembled onto the base thread.

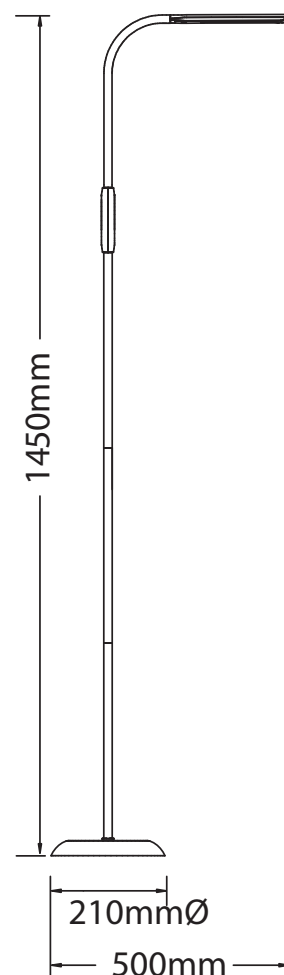

Note: When stems are aligned correctly, threads turn together easily.
If a thread jams it is cross threading so release it then realign before starting thread again.

Please use only with the Plug-In Power supply supplied. Connect the cord by pushing the Co-axial cable connectors together, before plugging into your wall socket.

- To switch ON, Touch the 
- The lamp has 3 selectable light levels, 30% > 60% > 100%
- Each Touch steps up the Light level.
- Touch again to turn OFF
- To change the Colour temperature, Touch the Mode switch **M**.
3000K – Warm White
4000K – Neutral White
5000K – Day Light
