

DIMENSIONS

80mm square x 43mm deep

TECHNICAL DATA

Power supply: 220-240V, Double Insulated

FEATURES

- 25 metre 180° high frequency occupancy sensor
- Surface Mount
- Recommended mounting 2.2mH
- Can detect through plaster board, glass and walls
- Adjustable time delay, lux and distance settings
- Digital HF sensor technology for excellent detection
- Max 1000 watt Incandescent
- Max 400 watt Fluorescent
- Max 300 watt LED

SPECIFICATIONS

IP Rating: IP20
Indoor / Outdoor: Indoor
Mounting type: Wall
