SAFETY INFORMATION: (Please retain for future reference)

- Always turn off the mains supply before commencing the installation of this fitting .
- This is a Class 3 product and requires an Earth connection – 230 (240) Volts – 50Hz AC.
- This product must be installed in accordance with the national building regulations, if in doubt consult a competent electrician.
- The Product should not be modified , as this may void the product warranty and render then the product unsafe
- We recommend the use of a suitable RCD, capable of carrying the intended load and which is correctly fused.

POSITION:

- This fitting is suitable for installation in Indoor locations only .
- Do not mount the fitting in a damp atmosphere.
- Do not stare at the operating lamp when using LED lamps .
- The Luminaire should be positioned so that prolonged staring into the luminaire at a distance closer than 0.2m is not expected.
- Ensure sufficient access to the fitting to enable safe maintenance.

LAMP INFORMATION:

- The Fitting is not suitable for dimming .
- We recommend LED bulbs only.
- Do not exceed the maximum wattage and bulb type stated on the lamp holder.

AFTERCARE AND MAINTENANCE:

- Always disconnect power supply when servicing or cleaning.
- Clean only with a soft cloth or sponge using warm soapy water and a non abrasive detergent .
